EXPERIENCE/PROJECTS

SurveyApp (December 2023)

SurveyApp is a web app for creation and filling of forms. It was created alongside 3 other fellow software engineers.
Contributions:

- Designed the backend server API implementing a RESTful architecture with python (Flask).
- Designed the MySQL database schema.
- Designed an authentication system using JWT.
- Contributed to the client-side implementation of API requests with JavaScript
- Contributed to the Frontend UI/UX design.

ALX AirBnB Clone (July 2023)

This project was part of the requirement for the ALX software engineering certificate.

Stack: Python (Flask), HTML, CSS, JavaScript, MySQL.

Repository Link: Hbnb GitHub

EDUCATION

Software Engineering

Institution: Holberton/ALX

Dates: November 2022 - January 2024

Bachelor of Science in *Cell Biology and Genetics*

University: University of Lagos, Nigeria

Dates: January 2016 - December 2019

SKILLS

Programming Languages: Python, C, NodeJs
Web Development: HTML, CSS, Js, React
Version Control: Git, GitHub
Database: MySQL, MongoDB
ORM: sqlalchemy
Scripting: Bash

CERTIFICATION AND LICENSES

alx Software Engineering
January 2024

Jobber man soft skills
April 2022

OpenSAP Python for beginners
June 2022
